Where do I park during construction?

During construction of the new aquatic and fitness center, the current facility will be open and operating as usual. There may be small intermittent closures, but our goal is to keep the facility open. Please continue to use the aquatics and fitness center during construction, but we need your help with traffic flow, parking, and pedestrian safety.

Parking Plan during construction (approximately 6 - 8 weeks)

- During initial stages of parking construction, the front parking lot will be closed. Parking will only be available behind the park, next to the building (the current back parking lot).
- You must enter and exit from Haworth Ave. This will be the only entrance and exit point available to you to access the back parking lot. This access roadway will have two lanes for two-way traffic, both entering and exiting from Haworth Ave. and the back parking lot.
- Parking will only be allowed in designated parking spaces in the back parking lot.
- No parking or stopping will be allowed along the access roadway leading from Haworth Ave. to the back parking lot (with the exceptions of emergency and ADA-designated commercial vehicles).
- Drivers, please be alert for children and adults walking to and from the building and the back parking lot.
- Because the number of parking spaces will be temporarily reduced, please consider carpoolling.
- Please wipe off your feet before entering the building, as the roadways may become muddy, and tracking mud and dirt indoors can cause safety and health issues.
- Once Part One of the parking plan is completed, new parking will be available in front and to the west of the current aquatic center.

Thank you for your cooperation. Questions? Contact Jim McMaster at 503.209.2222 For updates on construction, go to the Pool Renovation page at cprdnewberg.org.
